Re: ***Guayama – Termination of Sanitary Sewer System for Punta Pozuelo Ward***

According to administrative compliance order CWA-02-2011-3122, we certify that we have ceased from discharge storm water runoff from the project in reference into the Carribean Sea and we stopped all clearing, grading and excavations since July 23, 2011. We will be working in the following activities to fulfill all environmental requirements for storm water disposal since August 8, 2011:

1. Temporary stabilization PR 7710 where areas clearing, grading and excavation activities will be performed.
2. Permanent stabilization to areas where clearing, grading and excavations will no longer be performed.
3. Construction and installation of BMPs
4. Installation of sediment and erosion control systems.

Also we certify that the only area that have activities is the Pump Station, in this week (August 8 to 12) we have the following: Cleaning the parcel and streets from debris and other materials. In addition prepare the foundation of walls for the Miscellaneous Structure.

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or person who manage the system, or those person directly responsible for gathering the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations".
